Nieznana książka, tom I

Introduction

Basic Syntax

Bold and __Bold__

A list of options is given in alphabetical order for ease of reference

Some of these options also take their own sub-options. For example, writing

`wget --no-cookies --header "Cookie: foo=bar" http://example.com/`

will send a header containing the text `Cookie: foo=bar` to the HTTP server

---

Send mail to the following person or persons

Use only the local mail inbox for that user

Write the output to standard output rather than mailing it

Read the contents of file name after the message has been composed in an editor

---

Synchronize a list or array collection

Multiple threads may potentially access it
