Erj's Notes

How foolish to move through this place so quickly. It's taken me only a few hours to crack the back gate. Maybe I'll donate a cup or two, but Krag says he knows some private buyers who will pay handsomely for a working trinket. There has to be one in here.

The side doors are all locked, but this chest should have one or two things of value. When I get out I'm going to buy myself a castle.
