A letter that smells like troll

To the tunnel overseer,
there's something off about this place. It isn't unnerving but it is certainly confusing.

The quicksilver seems to simply... regenerate? It's difficult to describe. We had ten men on one wall and dug out a massive vein of quicksilver. The next day, it was back. As if they had never mined a thing.

The other miners don't seem to be too worried, there are also rumblings that it is the finest quicksilver they have ever seen.

The scratching is getting louder. Maybe that's the quicksilver regenerating? I'm not sure. Either way, we may have hit paydirt. .
